

BTEC Level 3 Sport Transition Project

One of the units you will be covering on this course is based around professional development in the sports industry (Unit 3).

I would like you to research into a possible career in sport, this means you will need to investigate into how to get there and how to progress. You must present your findings in either a poster or leaflet form (the more colour the better). The following must be covered:

- Job Role & Responsibilities (look at current job specifications on websites like indeed.co.uk)
- What sector is the job in? (public, private & voluntary)
- The type of employment it offers (full-time/part-time/fixed-term contracts/self-employment/zero-hours contract/ apprenticeships)
- Salary
- Qualifications required prior to applying for the job (GCSE/A Levels/ BTEC/ University / College)
- Any continuing professional development you could do once you have got the job? (progression)
