

Neale-Wade Academy Curriculum

Our curriculum is a platform for learning consisting of experiences which develop a student's character, knowledge, skills and appreciation of the wider world.

Our Curriculum Intent:

At Neale-Wade Academy we expect and support our students, as learners, to be aspirational and able to achieve their potential. Our students develop resilience, creativity and become confident communicators and readers by engaging in high quality learning through a curriculum which is rich, balanced, personalised and inclusive.

We nurture our students to be ambitious, organised, digitally literate, to demonstrate initiative and to have access and exposure to a range of opportunities which help build a picture of what they want their future to look like.

Our vision in the 21st Century is to develop students as global citizens, leaders and ambassadors to face the challenges and opportunities in the community beyond school.
